PROFESSIONAL SUMMARY

Information Technology student (Networking Track) at King Abdulaziz University with a 4.71/5.00 GPA and 3+ years of hands-on IT support experience in helpdesk support, Windows deployment, and hardware and software troubleshooting. Completed a summer traineeship at WOW Digital Information Technology and Cisco Networking Academy training in networking, hardware, and operating systems. Seeking an IT Support position to deliver fast, reliable technical support to end users.

EDUCATION

Bachelor of Science in Information Technology

King Abdulaziz University (KAU) | Jeddah, Saudi Arabia | 2022 – 2027 (Expected)

- GPA: 4.71 / 5.00 | 4th Year | Specialization: Networking Track

WORK EXPERIENCE

IT Support Technician & Graphic Designer | Dar Al-Nasaem for Publishing and Distribution | Jeddah, SA | 2022 – 2025

- Provided day-to-day IT support, troubleshooting hardware and software issues for all staff
- Installed and configured Windows systems, managed drivers, and set up printers across the office
- Designed promotional and publishing materials using Adobe Photoshop
- Maintained and organized digital assets, files, and internal systems
- Supported technical operations across the full publishing workflow over 3 years

IT Summer Trainee | WOW Digital Information Technology | Jeddah, SA | Jun 2026 - Sep 2026

- Completed hands-on training in web development, mobile app development, system analysis, deployment, integrations, and technical support
- Contributed to Esmaani project: developed promotional website, integrated Frappe Framework, built Flutter mobile app, implemented payment integration, and prepared beta release on Google Play Store
- Assisted in initial development of WOW Revenue Hub (Frappe/ERPNext): requirements analysis, integration planning, task planning, and Project Ledger creation
- Developed understanding of full SDLC from requirements to deployment and improvement

Bookseller & Event Staff | Jeddah / Riyadh / Madinah International Book Fair | 2021 – 2023

- Managed sales of books and educational tools at two major national book fairs
- Handled organizing, transporting, and delivering inventory at event venues
- Developed strong communication and customer service skills in a high-traffic environment

Warehouse Assistant | Zebra Stationery (Representative Warehouse) | Jeddah, SA | 2019

- Assisted in stationery warehouse operations including stock organization and logistics
- Gained foundational experience in inventory management and supply chain processes

PROJECTS

Event Management System (EMS) – Java, Spring Boot, PostgreSQL, Docker

- Developed full-stack event reservation platform
- Implemented booking system and role-based access control

Jafile (Java File Converter) — Java, Swing, Docker, Pandoc, FFmpeg, LibreOffice

- Built desktop app for converting files across multiple formats
- Implemented GUI with drag-and-drop and batch processing

BaseNode (Personal File Server) — Node.js, HTML, CSS, JavaScript

- Developed self-hosted file server using Node.js
- Implemented secure login and file management system

Smart Document SaaS Platform (SDSP) — FastAPI, React, PostgreSQL, Docker

- Developed a bilingual multi-tenant document builder and PDF generation platform

FunTime – Movies & TV Browser — HTML, CSS, JavaScript, REST APIs

- Built web app using HTML, CSS, JavaScript, and REST APIs
- Implemented search and media preview features
